

PLOTS AGAINST THE TRANSPORTS

Arrests in New York of Men Who Behaved Suspiciously

ONE MAN HIDING IN CROW'S NEST

Another Carrying a Bomb on Board the Ship

New York, Nov. 6.—With the arrest of a man found hiding in the crow's nest of a United States transport, formerly a German liner, a thorough search of the ship was begun to determine if any of its machinery had been damaged.

The identity of the man has not been divulged, but it was understood that he was a machinist, a fact which made the officials fear that he may have tampered with the machinery or wireless in some way. He had no business on the ship, it was said.

The man was examined by federal officials in an effort to discover his intentions. This is the third arrest made here of persons suspected of attempting to damage American troop ships.

A man named Walnum is awaiting trial on the charge. Yesterday Matthew Vaitekunas, a Lithuanian, was arraigned on the charge of attempting to place a bomb on board a transport. It was disclosed that he was the employee of a local shipyard who was arrested on Oct. 15 as he was boarding a transport with a bomb in his possession, but whose name was not then disclosed. He has since been held on Ellis island.

Vaitekunas yesterday pleaded not guilty and was held without bail to await the action of the federal grand jury.

The bomb, although small, the prosecuting attorney informed the court, was one of the most destructive that has come into the hands of the federal authorities.

Vaitekunas denied that he had attempted to place the bomb on board the American transport. He was represented

WIFE WAS ARRESTED.

Is Charged with Aiding Eugene Allen to File His Way Out of Jail.

Bennington, Nov. 6.—Mrs. Eugene Allen was brought here yesterday by Deputy Sheriff James D. Purdy of Manchester and lodged in jail, charged with aiding her husband, an alleged horse thief, to escape from the same institution. The specific charge against Mrs. Allen is that she provided the file with which her husband cut his way out of jail. She was arrested at the house of her brother, George Walker, in the town of Luzerne, N. Y.

Mrs. Allen told the deputy that she and her husband were a whole week making the trip from Bennington, following the latter's escape, to Warrensburg where Allen was re-arrested. They slept in barns and kept away from the traveled highways as much as possible.

Mrs. Allen denies that she smuggled to Allen the file with which her husband cut the bolt heads in the ventilator shaft door. She was arraigned before Justice H. J. Fuller at Manchester yesterday and pleaded not guilty.

PEACE VIA HERTLING?

Teutons See Good Omen in New Chancellor's Austrian Connections

RELIGIOUS BELIEF REGARDED SIGNIFICANT

Kaiser Ignored Hindenburg in Making the Appointment

Berne, Nov. 6.—The appointment of Count Hertling as imperial German chancellor is looked upon here as a revolution in the political life of Germany. In high official quarters the appointment is said to shift the center of the peace fight away from the Prussian military circles towards Munich and Vienna, and consequently it is considered tremendously significant for the rest of the world.

A majority of the South German and Austrian newspapers reflect the general standpoint of the Republican Germans of Switzerland, who indignantly are happy over the appointment of Count Hertling, which they regard, not as a Bavarian victory over the Prussians, but as a far-reaching good omen for a peace understanding.

Count Hertling is expected by them through his close Austrian connections to be able to enhance the peace ideas of Count Czernin von Chudenitz, the Austro-Hungarian foreign minister, in the German council, instead of discarding them, as another chancellor might.

The appointment of Count Hertling is considered the more remarkable as the military party or Field Marshal Von Hindenburg and General Von Ludendorff, first quartermaster general, were not consulted, whereas they were sponsors for Dr. Michaelis.

On the other hand, while Emperor William and the Conservatives are known to have been satisfied with Dr. Michaelis, the emperor none the less had made up his mind not to risk a chancellorship crisis in a few weeks and took recourse in the nearest approach to parliamentarism Germany ever has known. It is stated that Dr. Karl Helfferich, vice-chancellor, is certain to give up his post, and that he probably will be replaced by Herr Friedberg, National Liberal leader, or Herr von Payer, Progressive, Dr. August Mueller, Social Democrat, the present under secretary of the war food ministry, will remain in office, though other Socialists have declined actively to support Von Hertling by accepting posts offered them.

Satisfaction of the Liberal elements of the German population and press with the new administration in Germany seems mixed and half-way. It is based rather upon the assumption that Count Von Hertling, the imperial chancellor, is entering office as the representative of the majority of Parliament than upon Von Hertling's personality, and he evidently will last only so long as he conducts his administration as the representative of the majority party, this land in future be no longer the object."

The Pan-German movement has answered the appointment of Von Hertling with a straight declaration of war, based on his known and suspected attitude on peace terms and the belief that he is inclined to make peace on a basis which will permit later an approachment with the western powers. They were phrased wholly in words that a settlement of the Belgian problem probably would be obtainable under an "offer to guarantee that this land in the future be no longer the object."

The new chancellor conferred on Saturday with General Von Ludendorff, chief of the general staff, and Field Marshal Von Hindenburg in the presence of several leading parliamentarians, according to an Exchange Telegraph dispatch.

ERRING WOMAN SENTENCED.

Came from Keyport, N. J., to Burlington and Was Found with Soldier.

Burlington, Nov. 6.—Mrs. Hattie Ferguson Travers of Keyport, N. J., was sentenced to not less than 12 nor more than 18 months at hard labor at the state prison at Windsor before Judge Joseph J. Stearns yesterday on her plea of guilty of adultery.

Edward Marquis, member of the military police, was arrested at the same time and turned over to the authorities at the post.

Mrs. Travers came to Burlington three weeks ago. She is an attractive young woman and quickly made friends. It appears that she and Marquis went to a certain house in the lower part of the city, and posing as man and wife asked for rooms. They told a heart rending story of having just lost a child and wanting to get nice quiet rooms where they might be alone.

It also appears that Mrs. Travers has a husband, who follows the trade of plumbing at Keyport. The woman said she had been a member of the Baptist church and came of a good family.

CO. I IS GROWING.

Bennington Sent Down Four More Recruits Monday.

Bennington, Nov. 6.—Four more recruits left here yesterday to join Co. I of the First Vermont at Camp Bartlett, Westfield, Mass. They are Carroll L. Johnson, Tophile Gallo of Bennington, Harry M. Sidney of Manchester, David Bentley of South Dorset.

Messrs. Sidney and Bentley came down from Manchester Sunday to enlist. Sidney is not quite 20 years old and Bentley is only 18. Bentley was born in Sandgate, but his mother now lives at South Dorset and he has been working at Manchester. Gallo is a Bennington boy and has been working in Bradford's mill.

Johnson, who has been working here in the Woodard lunch cart and at the La-Fortune restaurant, was born in Poland and his mother lives in North Adams.

RAILROAD STOCKS SELL AT LOWEST IN YEARS

Heavy Drive Affects Wide Range of Securities in Wall Street—Some Below Minimum Fixed in 1914.

New York, Nov. 6.—Railroad stocks were pressed for sale at the stock exchange opening yesterday, the market breaking rapidly. Many issues still further reduced their recent low marks until they were below minimum figures fixed when the exchange closed early in the world war. Nor did they stop there. Repeated sharp smashes followed by smaller rallies brought the lowest figures in many years. The pressure continued well through the second hour. Union Pacific following its Saturday's decline lost 2 1/2 points to 110 1/2. Pennsylvania dropped to 48. Reading to 62. Canadian Pacific to 131 1/2. New York Central to 86 1/2. St. Paul to 39 1/2. Chesapeake & Ohio to 45 1/2. Erie to 14 1/2. New Haven 24. Northern Pacific 84 1/2. Baltimore & Ohio to 50 1/2. Nor were the rails alone in the fading process. Mercantile Marine preferred, after opening five-eighths up to 100, slumped to 95 1/2. United States Steel common sold down 3 1/2, to 92 1/2. Kennecott Copper to 26. Westinghouse to 30 1/2. Anaconda Copper 54 1/2. Utah Copper 71 1/2. United States Steel preferred 110. American Sugar 96 1/2 and Can 35.

HIGH HEELS PUT CORNS ON TOES

Tells Women How to Dry Up a Corn So It Lifts Out Without Pain

Modern high-heeled footwear buckles the toes and produces corns, and many of the thousands of hospital cases of infection and lockjaw are the result of woman's suicidal habit of trying to cut away these painful pests.

For little cost there can be obtained at any pharmacy a quarter of an ounce of a drug called freezone, which is sufficient to rid one's feet of every hard or soft corn or callous, without the slightest danger or inconvenience.

A few drops applied directly upon the tender, aching corn stops the soreness and shortly the entire corn, root and all, lifts right out. It is a sticky substance, which dries the moment it is applied, and thousands of men and women use it because the corn shrivels up and comes out without inflaming or even irritating the surrounding tissue or skin. Cut this out and try it if your corns bother you.—Adv.

Marching on to Victory

Our boys will always show themselves strong and brave in the face of the enemy. Those who are on the fighting line are picked men, for only about one man out of five passed the physical examination for army or navy. It is not a fear of illness or death that we should encourage, but a love of health, a sense of responsibility for the care of our bodies, a desire for efficiency, endurance and full achievement. If we aim for these and know the means of achieving them, kidney troubles and the needless miseries that embitter the lives of so many may be left to take care of themselves.

ALL MEN AT HOME SHOULD PREPARE FOR WAR.

The first test a man is put thru for either war or life insurance is an examination of his water. This is most essential because the kidneys play a

most important part in causing premature old age and death. The more injurious the poisons passing thru the kidneys the sooner comes decay—so says Dr. Pierce of the Surgical Institute, Buffalo, N. Y., who further advises all people who are past thirty to preserve the vitality of the kidneys and free the blood from poisonous elements, such as uric acid—drink plenty of water—sweat some daily and take Anuric, double strength, before meals.

This An-u-ric is a late discovery of Dr. Pierce and is put up in tablet form, and can be obtained at almost any drug store. For that backache, lumbago, rheumatism, "rusty" joints, swollen feet or hands, due to uric acid in the blood, Anuric quickly dissolves the uric acid as hot water does sugar. Take a little Anuric before meals and prolong your life. Send 10 cents to Dr. Pierce for trial package of Anuric, or write for free medical advice.
